

# **AQUA-LIFE** PRODUCTS

**NEW!**

## **BioStream BP80**

**NEW!**

The BP80 is specifically designed for the safe movement of large fish such as "Super Smolts" and other species which are too large for existing 8" pumps. Whether pumping high densities of fish over long or short distances or operating the system at slow speeds for grading, counting, and vaccinating operations, the BP80 stands out in performance above all other 8" fish handling systems on the market today.

**Serving the Aquaculture Industry since 1975**

# Applications

Model	BP25	BP40-BP40S	BP60-BP60s-BP60SS	BP80-BP80S
<i>Intel/ Outlet Size</i>	2.5 in (65mm)	4 in (100mm)	6 in (150mm)	8 in (200mm)
<i>Main Pump Drive</i>	2 HP	3 HP & 7.5 HP	5 HP-7.5 HP-10 HP	15HP-20HP
<i>Priming Pump Drive</i>	1 HP	1 HP	1.5 HP	1.5 HP
<i>Fish Pumping Cap.</i>	4 t/hr	8 t/hr	16 t/hr	24 t/hr
<i>Pump Output Max.</i>	170 gpm	480-807 gpm	800-1200-1500 gpm	2400-2700 gpm
<i>Maximum Head</i>	24.6 ft (7.5m)	29.5-46 ft (9m-14m)	29.5-36-46 ft (9-11-14m)	29.5-36 ft (9-11m)
<i>Maximum Distance</i>	300m	800m-3000m	600m-1500m-2700m	800m-2000m
<i>Average Fish Size</i>	95g	300g	600g	1.5 kg
